This Prospectus provides important information about the Fund that you should know before investing. Please read it carefully and keep it for future reference.

These securities have not been approved or disapproved by the Securities and Exchange Commission nor has the Securities and Exchange Commission passed upon the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund’s shareholder reports like this one will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund’s website www.athenatacticalfund.com., and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by following the instructions included with paper Fund documents that have been mailed to you. You may also elect to receive all future reports in paper free of charge.

TABLE OF CONTENTS

FUND SUMMARY

Investment Objective

The Athena Behavioral Tactical Fund (the "Fund") seeks capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on purchases of Class A shares if you and/or your family invest, or agree to invest in the future, at least $25,000 in the Fund. More information about these and other discounts is available from your financial professional and in **Share Classes** on page 15 of the Fund's Prospectus.

Shareholder Fees (fees paid directly from your investment)	**Class A**	**Class C**	**Class I**
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	5.75%	None	None
Maximum Deferred Sales Charge (Load) (as a % of the of the original purchase price)	None	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None	None
Redemption Fee (as a % of amount redeemed)	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	1.00%	1.00%	1.00%
Distribution and/or Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	1.85%	1.85%	1.85%
Total Annual Fund Operating Expenses	3.10%	3.85%	2.85%
Fee Waiver and/or Expense Reimbursement(1)	(1.60)%	(1.60)%	(1.60)%
Total Annual Fund Operating Expenses After Fee Waiver	1.50%	2.25%	1.25%

(1) Princeton Fund Advisors, LLC has contractually agreed to waive management fees and to make payments to limit Fund expenses, through at least August 31, 2020, so that the total annual operating expenses (exclusive of any front-end or contingent deferred loads, (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses, (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser)) do not exceed 1.50%, 2.25% and 1.25% of average daily net assets attributable to Class A, Class C and Class I shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fiscal year end in which the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits and the expense limit at the time of recoupment. This agreement may be terminated only by the Fund's Board of Trustees, on 60 days written notice to Princeton Fund Advisors, LLC.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same, and that the Adviser's fee waiver is only in effect for the term of the waiver. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years	5 Years	10 Years
Class A	$719	$1,335	$1,975	$3,685
Class C	$228	$1,028	$1,847	$3,978
Class I	$127	$732	$1,362	$3,060

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 97% of the average value of its portfolio.

Principal Investment Strategies

To achieve its investment objective, the Fund seeks investment exposure to domestic, foreign and emerging market equity markets. To do so, the Fund invests primarily in the following security and derivative types that either themselves invest in or provide investment exposure to domestic, foreign and emerging market equities:

- exchange traded funds (ETFs)
- exchange traded notes (ETNs)
- other mutual funds
- groups of equity securities related by index or markets (such as stock baskets and other index-or market-based groups of related equity securities)
- total return swaps on broad-based equity indices and options on equities on equity indices

The Fund is designed to invest in global markets which the portfolio managers believe have the most attractive expected returns on an unconstrained basis. The portfolio managers use patented research related to behavioral finance to determine what they believe are the most attractive equity markets, levels of exposure and capitalization ranges in which to invest. If no equity markets are deemed attractive, the Fund may invest in cash equivalents until the portfolio managers believe more attractive opportunities are available.

Depending on the portfolio managers' determinations regarding the attractiveness of equity markets, the Fund will invest all of its assets in:

- securities, swaps or options providing exposure to U.S. large cap equities;
- securities, swaps or options providing exposure to U.S. small cap equities;
- securities, swaps or options providing exposure to international equities; or
- cash and cash equivalents

If the portfolio managers believe that the potential return in a particular equity market segment is high enough, the Fund will use leveraged ETFs, swaps, or options in order to provide additional investment exposure to that segment.

The Fund's adviser, Princeton Fund Advisors, LLC (the "Adviser" or "Princeton") is responsible for regulatory oversight of the Fund and oversight of the investment portfolio. The Adviser has delegated management of the Fund's portfolio to AthenaInvest Advisors LLC (the "Sub-Adviser" or "AthenaInvest"). The Sub-Adviser is responsible for securities selection and trade execution

The strategy relies on what the portfolio managers believe to be unique market behavioral indicators that measure macro-level investor preferences for specific investment strategies and return factors. These market indicators are used to estimate expected returns across global equity markets and capitalization levels. These expected returns are used to determine what are believed to be the most attractive equity markets, levels of exposure and capitalization ranges. The portfolio managers then select specific investments they believe exhibit attractive characteristics to expose the portfolio to targeted domestic and foreign equity markets or segments of markets, including high correlation with the targeted market, level of exposure, liquidity, simplicity of implementation, and expense. If the expected return is high enough, the Fund can take opportunistic positions up to two times market exposure. The Fund may invest in options positions when the portfolio managers determines that options provide a more efficient way to increase or reduce the Fund's overall market exposure.

The Fund may at times hold all or a portion of its assets in cash and short-term, highly-liquid investments, such as money market instruments, U.S. government obligations, commercial paper, repurchase agreements, and other cash or cash equivalent positions either due to pending investments or when expected equity returns are very low or negative.

The Adviser's investment oversight process combines risk management, due diligence and portfolio monitoring. The Adviser monitors the Fund's strategies as-executed for investment performance and achievement of the Fund's risk objectives. The Fund's investment portfolio may be rebalanced as a result of the Adviser's monitoring policies according to the Fund's investment objectives, polices or restrictions. The Adviser has compliance and regulatory oversight and supervisory responsibilities for the Fund's securities portfolio, however day-to-day portfolio management of the Fund is delegated to the Sub-Adviser as described above.

Principal Investment Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance.

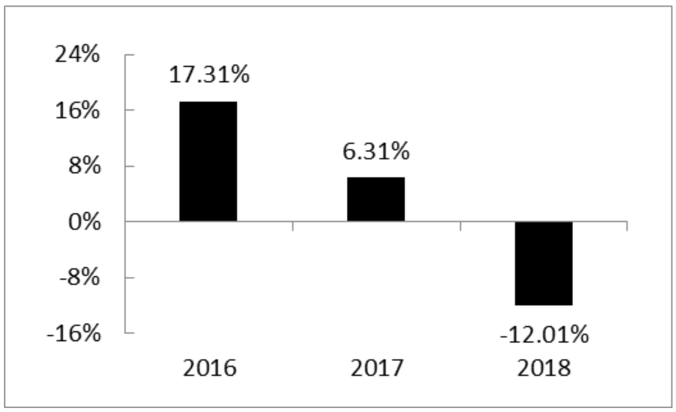
- *Credit Risk:* There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. In addition, the credit quality of fixed income securities held by the Fund may be lowered if an issuer's financial condition changes. High yield or junk bonds are more susceptible to these risks than debt of higher quality issuers. In determining the credit quality of fixed income securities, the Fund relies in part upon rating agencies which assign ratings based on their analysis of the issuer's financial condition, economic and debt characteristics, and specific revenue sources securing the bond. There is additional risk that the national credit rating agencies may be wrong in their determination of an issuer's financial condition, or the risks associated with a particular security. A change in either the issuer's credit rating or the market's perception of the issuer's business prospects will affect the value of its outstanding securities. Ratings are not a recommendation to buy, sell or hold and may be subject to review, revision, suspension or reduction, or may be withdrawn at any time.
- *Emerging Markets Risk:* Investing in emerging markets involves not only the risks described below with respect to investing in foreign securities, but also other risks, including exposure to economic structures that are generally less diverse and mature, and to political systems that can be expected to have less stability, than those of developed countries. The typically small size of the markets of securities of issuers located in emerging markets and the possibility of a low or nonexistent volume of trading in those securities may also result in a lack of liquidity and in price volatility of those securities.
- *Exchange Traded Funds ("ETFs") Risk:* ETFs are subject to investment advisory fees and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other Funds that invest directly in equity and fixed income securities. Each ETF is subject to specific risks, depending on the nature of the fund. ETF shares may trade at a discount to or a premium above net asset value if there is a limited market in such shares. Index-tracking ETFs in which the Fund invests will not be able to replicate exactly the performance of the indices they seek to track because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities or index. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund.
- *Exchange-Traded Notes ("ETNs") Risk:* ETNs are obligations of the issuer of the ETN, are subject to credit risk, and the value of the ETN may drop due to a downgrade in the issuer's credit rating, despite the underlying market benchmark or strategy remaining unchanged. The value of an ETN may also be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying assets, changes in the applicable interest rates, changes in the issuer's credit rating, and economic, legal, political, or geographic events that affect the referenced underlying asset. When the Fund invests in ETNs it will bear its proportionate share of any fees and expenses borne by the ETN. ETNs are also subject to tax risk. No assurance can be given that the Internal Revenue Service (the "IRS") will accept, or a court will uphold, how the Fund characterizes and treats ETNs for tax purposes.
- *Foreign Investment Risk:* Foreign investing in equity securities or notes of foreign issuers involves risks not typically associated with U.S. investments, including adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.
- *Interest Rate Risk:* Interest rate risk is the risk that fixed income security prices overall, including the prices of securities held by the Fund or an ETF in which the Fund invests, will decline over short or even long periods of time due to rising interest rates. Bonds with longer maturities tend to be more sensitive to interest rates than bonds with shorter maturities.
- *Issuer-Specific Risk:* The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Leverage Risk*: The use of leverage by the Fund, such as borrowing money to purchase securities or the use of options, will cause the Fund to incur additional expenses and magnify the Fund's gains or losses.

- *Management Risk:* The net asset value of the Fund changes daily based on the performance of the securities in which it invests. The portfolio managers' judgments regarding market behavioral indicators and the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests may prove to be incorrect and may not produce the desired results. Additionally, the judgments about the potential performance of the Fund's investment portfolio, within the Fund's investment policies and risk parameters, may prove incorrect and may not produce the desired results.
- *Market Risk:* The net asset value of the Fund will fluctuate based on changes in the value of the securities in which the Fund invests. The Fund invests in securities which may be more volatile and carry more risk than some other forms of investment. The price of securities may rise or fall because of economic or political changes. Security prices in general may decline over short or even extended periods of time. Market prices of securities in broad market segments may be adversely affected by price trends in energy commodities, interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- *Mutual Fund Risk:* Mutual funds in which the Fund invests are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, the cost of investing in the Fund will be higher than the cost of investing directly in other mutual funds and may be higher than other mutual funds that invest directly in stocks and bonds. Each of the underlying mutual funds is subject to its own specific risks, but the adviser expects the principal investments risks of such mutual funds will be similar to the risks of investing in the Fund.
- *Options Risk:* Because option premiums paid by the Fund are small in relation to the market value of the investments underlying the options, buying put and call options can be more speculative than investing directly in securities. The prices of all derivative instruments, including options, are highly volatile. Price movements of options contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. The value of options also depends upon the price of the reference assets underlying them. There are risks associated with the purchase of call and put options. As the buyer of a put or call option, the Fund risks losing the entire premium invested in the option if the Fund does not exercise the option.
- *Portfolio Turnover Risk*: A higher portfolio turnover will result in higher transactional and brokerage costs.
- *Small and Medium Capitalization Company Risk:* The value of small or medium capitalization company securities may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market in general.
- *Swaps Risk:* The Fund's use of swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. The value of a swap may be highly volatile and may fluctuate substantially during a short period of time.
- *U.S. Government Securities Risk*: The Fund may invest in obligations issued by agencies and instrumentalities of the U.S. Government. The U.S. Government may choose not to provide financial support to U.S. Government sponsored agencies or instrumentalities if it is not legally obligated to do so, in which case, if the issuer defaulted, the Fund might not be able to recover its investment.
- *Value Investing Risk:* The adviser's assessment of a security's intrinsic value may never be fully recognized or realized by the market.
- *Volatility Risk:* The Fund invests in securities which may be more volatile and carry more risk than other investments.

Performance

The bar chart and performance table below show the variability of the Fund's returns, which is some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing the Fund's one-year and since inception performance compared with those of a broad measure of market performance. The bar chart shows performance of the Fund's Class I shares for each calendar year since the Fund's inception. The performance table compares the performance of the Fund over time to the performance of a broad-based securities market index. The Class A sales charge is reflected in the average annual total return table. Although Class A and Class C shares would have similar annual returns to Class I shares because the classes are invested in the same portfolio of securities, the returns for Class A and Class C shares would be different from Class I shares because Class A and Class C shares have different expenses than Class I shares. You should be aware that the Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. The Fund changed its principal investment strategies on March 12, 2019. Performance prior to that date reflects the Fund's prior principal investment strategies. Updated performance information is available at no cost by calling 1-888-868-9501.

Class I Performance Bar Chart for Calendar Years Ended December 31



Best Quarter:	3/31/2016	5.60%
Worst Quarter:	12/31/2018	(13.40)%

The Fund's Class I year-to-date return as of June 30, 2018 was 1.61%.

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2018)

	One Year	Since Inception (5/15/15)
Return before taxes – Class I Shares	(12.01)%	(1.36)%
Return after taxes on distributions – Class I Shares	(13.86)%	(2.46)%
Return after taxes on distributions and sale of Fund shares – Class I Shares	(5.74)%	(0.97)%
Return before taxes – Class A Shares*	(12.35)%	(1.63)%
S&P 500 Index**	(4.38)%	6.87%
MSCI ACWI Index***	(9.42)%	2.81%

* The information presented above includes the maximum Class A Sales load. Without a sales load, returns would have been 6.03% for the one-year period and 2.79% since inception.

** The S&P 500 Index is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries. The Total Return version of the index is shown.

*** The MSCI ACWI Index is an index representing the equity returns in 23 developed and 24 emerging markets. Given the Fund's principal investment strategies, the MSCI ACWI Index is a more appropriate benchmark index for the Fund.

After-tax returns are calculated using the highest historical individual federal marginal income tax rate and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRA"); after-tax returns are shown for Class I shares and after-tax returns for other classes will vary.

Investment Adviser: Princeton Fund Advisors, LLC

Sub-Adviser: AthenaInvest Advisors LLC

Portfolio Managers: C. Thomas Howard, PhD, CEO and Chief Investment Officer at AthenaInvest LLC
Andrew C. Howard, Vice President at AthenaInvest LLC

Each served as a portfolio manager of the Fund from inception in May 2015 until May 2016 and then resumed as portfolio managers in August 2016. From May 2016 until August 2016, AthenaInvest LLC did not serve as the sub-adviser to the Fund.

Purchase and Sale of Fund Shares

You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. The minimum initial investment in Class A, Class I and Class C shares is $2,500, $100,000, and $2,500, respectively. There is a minimum amount of $100 for subsequent investment in any share class.

Tax Information

Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund seeks capital appreciation. The Fund's investment objective may be changed by the Fund's Board of Trustees without shareholder approval upon 60 days written notice to shareholders.

Principal Investment Strategies

To achieve its investment objective, the Fund seeks investment exposure to domestic, foreign and emerging market equity markets. To do so, the Fund invests primarily in the following security and derivative types that either themselves invest in or provide investment exposure to domestic, foreign and emerging market equities:

- exchange traded funds (ETFs)
- exchange traded notes (ETNs)
- other mutual funds
- groups of equity securities related by index or markets (such as stock baskets and other index-or market-based groups of related equity securities)
- total return swaps on broad-based equity indices
- options on equities on equity indices

The Fund is designed to invest in global markets which the portfolio managers believe have the most attractive expected returns on an unconstrained basis. The portfolio managers use behavioral research to determine what they believe are the most attractive equity markets, levels of exposure and capitalization ranges in which to invest. If no equity markets are deemed attractive, the Fund may invest in cash equivalents until the portfolio managers believe more attractive opportunities are available.

The portfolio's strategy relies on what the portfolio managers believe to be unique behavioral indicators which measure macro-level investor preferences for specific investment strategies and return factors. These market indicators are used to estimate expected returns across global equity markets and capitalization levels. These expected returns are used to determine what are believed to be the most attractive equity markets, levels of exposure and capitalization ranges. If the expected return is high enough, the Fund can take opportunistic positions up to two times market exposure. Conversely, if the expected return is low in all equity markets, the Fund can take a defensive position and move the portfolio to cash or cash equivalents until the portfolio managers believe there is a more attractive expected return opportunity.

In allocating the Fund's assets, the portfolio managers use their quantitative behavioral research process to determine the Fund's:

- overall level of equity market exposure
- domestic and international equity market exposure
- equity market capitalization exposure

The portfolio managers will select investments they believe exhibit attractive characteristics to expose the portfolio to targeted markets or segments of markets, including high correlation with the targeted market, level of exposure, liquidity, simplicity of implementation, and expense. The Fund may invest in options positions when the portfolio managers determine that they provide a more efficient way to increase or reduce the Fund's overall market exposure.

The Fund may at times hold all or a portion of its assets in cash and short-term, highly-liquid investments, such as money market instruments, U.S. government obligations, commercial paper, repurchase agreements, and other cash or cash equivalent positions either due to pending investments or when expected equity returns are very low or negative.

As the Fund's adviser, Princeton Fund Advisors, LLC (the "Adviser" or "Princeton") is responsible for regulatory oversight of the Fund and oversight of the investment portfolio. The Adviser delegates management of the Fund's portfolio to AthenaInvest Advisors LLC (the" Sub-Adviser or "AthenaInvest"). The Sub-Adviser is responsible for securities selection and trade execution.

Princeton Oversight Process

The Adviser's investment oversight process combines risk management, due diligence and portfolio monitoring. The Adviser monitors the Fund's strategies as executed for investment performance and achievement of the Fund's risk objectives. The Fund's investment portfolio may be rebalanced as a result of the Adviser's monitoring policies in order to avoid violating its investment objectives, polices or restrictions. The Adviser has compliance and regulatory oversight and supervisory responsibilities for the Fund. A summary of the Adviser's process is as follows:

- Working with the Sub-Adviser to set the Fund's overall investment objectives
- Monitoring the performance of the investment portfolio, including compliance with the investment objectives, policies, and restrictions of the Fund
- Monitoring the investment portfolio to assure that investments made are consistent with the Fund's strategy and regulatory restrictions

Athena's Investment Process

Through the use of proprietary and patented algorithms, Athena estimates expected returns in various global equity markets by measuring deep behavioral patterns. The Athena Global Tactical strategy uses the strength of expected market return estimates to allocate among U.S. large-cap equities, U.S. small-cap equities, international developed equities, and cash. In high expected return environments, the portfolio can leverage its equity exposure to 200% but can also go to 100% cash when expected returns are low. This unique combination takes advantage of both market rotation and beta exposure opportunities.

Athena's strategy seeks to generate attractive long-term returns rather than managing short-term volatility or drawdown. Its investment process is based on unique behavioral signals and is implemented differently than traditional tactical management approaches because it focuses on a long-term investment horizon (5-10 years) and utilizes behavioral factors rather than momentum or valuation trends.

Athena's investment process is driven by its proprietary historical research database which contains extensive fund and stock data dating back as far as 1980. This survivor-bias free database of managers, holdings, and securities combined with patented algorithms allows Athena, to conduct a wide range of investment research on unique behavioral factors using large datasets over long time horizons.

<u>Principal Investment Risks</u>

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance.

- *Credit Risk:* There is a risk that issuers will not make payments on securities held by the Fund, resulting in losses to the Fund. In determining the credit quality of fixed income securities, the Fund relies in part upon rating agencies which assign ratings based on their analysis of the issuer's financial condition, economic and debt characteristics, and specific revenue sources securing the bond. There is a risk that the national credit rating agencies may be wrong in their determination of an issuer's financial condition, or the risks associated with a particular security. A change in either the issuer's credit rating or the market's perception of the issuer's business prospects will affect the value of its outstanding securities. Ratings are not a recommendation to buy, sell or hold and may be subject to review, revision, suspension or reduction, or may be withdrawn at any time. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult for the Fund to sell the security. Default, or the market's perception that an issuer is likely to default, could reduce the value and liquidity of securities held by the Fund, thereby reducing the value of your investment in Fund shares. In addition, default may cause the Fund to incur expenses in seeking recovery of principal or interest on its portfolio holdings. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease. In addition, to the extent the Fund deals with a limited number of counterparties, it will be more susceptible to the credit risks associated with those counterparties. The Fund is neither restricted from dealing with any particular counterparty nor from concentrating any or all of its transactions with one counterparty. The ability of the Fund to transact business with any one or number of counterparties may increase the potential for losses by the Fund.

- *Emerging Markets Risk:* The Fund may invest a portion of its assets in countries with newly organized or less developed securities markets. There are typically greater risks involved in investing in emerging markets securities. Generally, economic structures in these countries are less diverse and mature than those in developed countries and their political systems tend to be less stable. Emerging market economies may be based on only a few industries, therefore, security issuers, including governments, may be more susceptible to economic weakness and more likely to default. Emerging market countries also may have relatively unstable governments, weaker economies, and less-developed legal systems with fewer security holder rights. Investments in emerging markets countries may be affected by government policies that restrict foreign investment in certain issuers or industries. The potentially smaller size of their securities markets and lower trading volumes can make investments relatively illiquid and potentially more volatile than investments in developed countries, and such securities may be subject to abrupt and severe price declines. Due to this relative lack of liquidity, the Fund may have to accept a lower price or may not be able to sell a portfolio security at all. An inability to sell a portfolio position can adversely affect the Fund's value or prevent the Fund from being able to meet cash obligations or take advantage of other investment opportunities.
- *Exchange Traded Funds Risk:* ETFs are subject to investment advisory fees and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in other ETFs and may be higher than other mutual funds that invest directly in securities. ETFs are listed on national stock exchanges and are traded like stocks listed on an exchange. ETF shares may trade at a discount or a premium in market price if there is a limited market in such shares. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. Because the value of ETF shares depends on the demand in the market, the adviser may not be able to liquidate the Fund's holdings at the most optimal time, adversely affecting performance. ETFs and index-tracking mutual funds in which the Fund invests will not be able to replicate exactly the performance of the indices they track.
    - *Strategy Risk.* Each ETF is subject to specific risks, depending on the nature of the fund. These risks could include small and medium capitalization risk, foreign investment risk and emerging market risk.
    - *Tracking Risk.* ETFs and index-tracking mutual funds in which the Fund invests will not be able to replicate exactly the performance of the indices they track because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities or index. In addition, the funds will incur expenses not incurred by their applicable indices. Certain securities comprising the indices tracked by the funds may, from time to time, temporarily be unavailable, which may further impede the ETFs' and mutual funds' ability to track their applicable indices.
- *Exchange Traded Notes Risk:* ETNs are senior, unsecured, unsubordinated debt securities whose returns are linked to the performance of a particular market benchmark or strategy minus applicable fees. ETNs are traded on an exchange during normal trading hours. However, investors can also hold the ETN until maturity. At maturity, the issuer pays to the investor a cash amount equal to the principal amount, subject to the day's market benchmark or strategy factor. ETNs do not make periodic coupon payments or provide principal protection. ETNs are subject to credit risk and the value of the ETN may drop due to a downgrade in the issuer's credit rating, despite the underlying market benchmark or strategy remaining unchanged. The value of an ETN may also be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying assets, changes in the applicable interest rates, changes in the issuer's credit rating, and economic, legal, political, or geographic events that affect the referenced underlying asset. When a Fund invests in ETNs it will bear its proportionate share of any fees and expenses borne by the ETN. Although an ETN may be listed on an exchange, the issuer may not be required to maintain the listing and there can be no assurance that a secondary market will exist for an ETN. ETNs are also subject to tax risk. No assurance can be given that the Internal Revenue Service (the "IRS") will accept, or a court will uphold, how the Fund characterizes and treats ETNs for tax purposes. Further, the IRS and Congress are considering proposals that would change the timing and character of income and gains from ETNs. An ETN that is tied to a specific market benchmark or strategy may not be able to replicate and maintain exactly the composition and relative weighting of securities, commodities or other components in the applicable market benchmark or strategy. Some ETNs that use leverage can, at times, be relatively illiquid and, thus, they may be difficult to purchase or sell at a fair price. Leveraged ETNs are subject to the same risk as other instruments that use leverage in any form.
- *Foreign Investment Risk:* The Fund could be subject to greater risks because the Fund's performance may depend on factors other than the performance of securities of U.S. issuers. Changes in foreign economies and political climates are more likely to affect the Fund than a mutual fund that invests exclusively in U.S. dollars and U.S. Issuers. The value of foreign currency denominated securities or foreign currency contracts is also affected by the value of the local currency relative to the U.S. dollar. There may also be less government supervision of foreign markets, resulting in non-uniform accounting practices and less publicly available information about issuers of foreign currency denominated securities. The value of foreign investments, including foreign currency denominated investments, may be affected by changes in exchange control regulations, application of foreign tax laws (including withholding tax), changes in governmental administration or economic or monetary policy (in this country or abroad) or changed circumstances in dealings between nations. Investments in foreign issues, whether denominated in U.S. dollars or foreign currencies, could be affected by other factors not present in the United States, including expropriation, armed conflict, confiscatory taxation, and potential difficulties in enforcing contractual obligations.

- *Interest Rate Risk:* The value of the Fund may fluctuate based on changes in interest rates and market conditions. As interest rates rise, the value of income producing instruments may decrease. This risk increases as the term of the note increases. Income earned on floating- or variable-rate securities will vary as interest rates decrease or increase. However, the interest rates on variable-rate securities, as well as certain floating-rate securities whose interest rates are reset only periodically, can fluctuate in value as a result of interest rate changes when there is an imperfect correlation between the interest rates on the securities and prevailing market interest rates.
- *Issuer-Specific Risk:* The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Leverage Risk*: Using derivatives can create leverage, which can amplify the effects of market volatility on the Fund's share price and make the Fund's returns more volatile. The use of leverage may cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations. The use of leverage may also cause the Fund to have higher expenses than those of mutual funds that do not use such techniques.
- *Management Risk:* The net asset value of the Fund changes daily based on the performance of the securities in which it invests. The portfolio managers' judgments regarding market behavioral indicators and the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests may prove to be incorrect and may not produce the desired results. Additionally, the judgments about the potential performance of the Fund's investment portfolio, within the Fund's investment policies and risk parameters, may prove incorrect and may not produce the desired results.
- *Market Risk:* The net asset value of the Fund will fluctuate based on changes in the value of the securities in which the Fund invests. The Fund invests in securities which may be more volatile and carry more risk than some other forms of investment. The price of securities may rise or fall because of economic or political changes. Security prices in general may decline over short or even extended periods of time. Market prices of securities in broad market segments may be adversely affected by price trends in energy commodities, interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- *Mutual Fund Risk:* Mutual funds in which the Fund invests are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, the cost of investing in the Fund will be higher than the cost of investing directly in other mutual funds and may be higher than other mutual funds that invest directly in stocks and bonds. Each of the underlying mutual funds is subject to its own specific risks, but the adviser expects the principal investments risks of such mutual funds will be similar to the risks of investing in the Fund.
- *Options Risk:* Because option premiums paid by the Fund are small in relation to the market value of the investments underlying the options, buying put and call options can be more speculative than investing directly in securities. The prices of all derivative instruments, including options, are highly volatile. Price movements of options contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. The value of options also depends upon the price of the reference assets underlying them. There are risks associated with the purchase of call and put options. As the buyer of a put or call option, the Fund risks losing the entire premium invested in the option if the Fund does not exercise the option.
- *Portfolio Turnover Risk*: A higher portfolio turnover may result in higher transactional and brokerage costs associated with the turnover which may reduce the Fund's return, unless the securities traded can be bought and sold without corresponding commission costs. Active trading of securities may also increase the Fund's realized capital gains or losses, which may affect the taxes you pay as a Fund shareholder.
- *Small and Medium Capitalization Company Risk:* The value of small or medium capitalization company securities may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market in general. These companies may have narrower markets, limited product lines, fewer financial resources, and they may be dependent on a limited management group. Investing in lesser-known, small and medium capitalization companies involves greater risk of volatility of the Fund's net asset value than is customarily associated with larger, more established companies.
- *Swaps Risk:* The Fund's use of swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. The value of a swap may be highly volatile and may fluctuate substantially during a short period of time, and payments made pursuant to swap agreements also may be highly volatile. Payments pursuant to swap agreements are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. The value of swap agreements also depends upon the price of the reference assets underlying them.

- *U.S. Government Securities Risk*: The Fund may invest in obligations issued by agencies and instrumentalities of the U.S. Government. These obligations vary in the level of support they receive from the U.S. Government. They may be: (i) supported by the full faith and credit of the U.S. Treasury, such as those of the Government National Mortgage Association; (ii) supported by the right of the issuer to borrow from the U.S. Treasury, such as those of the Federal National Mortgage Association; or (iii) supported only by the credit of the issuer, such as those of the Federal Farm Credit Bureau. The U.S. Government may choose not to provide financial support to U.S. Government sponsored agencies or instrumentalities if it is not legally obligated to do so, in which case, if the issuer defaulted, the Fund might not be able to recover its investment.
- *Value Investing Risk*: The adviser's assessment of a security's intrinsic value may never be fully recognized or realized by the market, and a security judged to be undervalued may actually be appropriately priced or its price may move in the wrong direction.
- *Volatility Risk:* The Fund invests in securities which may be more volatile and carry more risk than other investments.

Temporary Investments

To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and unaffiliated money market instruments. These short-term debt securities and unaffiliated money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure

A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information. The Fund may, from time to time, make available month-end portfolio holdings information on the website athenatacticalfund.com. If month-end portfolio holdings are posted to the website, they are expected to be approximately 60 days old and remain available until new information for the next month is posted. Shareholders may request portfolio holdings schedules at no charge by calling 1-888-868-9501.

Cybersecurity

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

MANAGEMENT

Investment Adviser

Princeton Fund Advisors, LLC, 1580 Lincoln St. Suite 680, Denver, CO 80203, serves as investment adviser to the Fund. Subject to the authority of the Board of Trustees, the Adviser is responsible for management of the Fund's investment portfolio through the Sub-Adviser. The Adviser is responsible for selecting the Sub-Adviser and monitoring the Sub-Adviser's selection securities and assuring that investments are made according to the Fund's investment objective, policies and restrictions. Additionally, the Adviser is responsible for conducting initial and ongoing independent evaluation of the Fund's asset allocation. The Adviser was established in 2011 for the purpose of advising individuals and institutions. As of February 28, 2019, the Adviser had approximately $1.45 billion in assets under management.

Greg Anderson, President, and John L. Sabre, Chief Executive Officer, Managers of Princeton Fund Advisors, are responsible for the Adviser's oversight role with respect to the Fund. Prior to founding Princeton in 2011 and Mount Yale Asset Management, LLC ("Mount Yale") in 1999, Mr. Anderson was a Senior Vice President and Managing Director of Investment Manager Search, Evaluation, and Due Diligence at Portfolio Management Consultants, Inc. Mr. Anderson was previously employed with Deloitte & Touche where he specialized in the areas of estate planning, health care and non-profit organizations, and tax and personal finance planning for high net worth individuals. Mr. Anderson holds a B.A. degree from Hamline University in Minnesota and a J.D. from the University of Minnesota School of Law. Mr. Anderson is a Certified Public Accountant (inactive).

Prior to founding Princeton in 2011, Mr. Sabre has served as the Chairman and Chief Executive Officer of Mount Yale since 2001. Prior to 2001, Mr. Sabre was a Senior Managing Director and Head of the Mezzanine Capital Group at Bear Stearns & Co. Mr. Sabre previously served as President of First Dominion Capital, which managed $3.0 billion of assets and is now owned by Credit Suisse First Boston. Prior to his position at First Dominion Capital, Mr. Sabre was a Managing Director and founding partner of Indosuez Capital, the merchant banking division of Credit Agricole Indosuez. Mr. Sabre holds a B.S. degree from the Carlson School at the University of Minnesota and an M.B.A. degree from the Wharton School at the University of Pennsylvania.

Pursuant to an advisory agreement between the Fund and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.00% of the Fund's average daily net assets. The Adviser pays the Sub-Adviser out of the fee it receives from the Fund. The Adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least August 31, 2020, to ensure that Total Annual Fund Operating Expenses After Fee Waiver and/or Reimbursement (exclusive of any front-end or contingent deferred loads; (ii) brokerage fees and commissions; (iii) acquired fund fees and expenses; (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser) do not exceed 1.50%, 2.25% and 1.25% of average daily net assets attributable to Class A, Class C and Class I shares, respectively; subject to possible recoupment from the Fund in future years on a rolling three year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits and the expense limit at the time of recoupment. Fee waiver and reimbursement arrangements can decrease the Fund's expenses and boost its performance. For the fiscal period ended April 30, 2018, the Fund paid an investment advisory fee to the Adviser at an annual rate of 0.00% of the average daily net assets of the Fund after waivers and reimbursements. A discussion regarding the basis for the Board of Trustees' approval of the advisory agreement is available in the Fund's annual report to shareholders dated April 30, 2018.

Investment Sub-Adviser

AthenaInvest Advisors LLC, located at 5340 South Quebec Suite 365-N, Greenwood Village, CO 80111, serves as sub-adviser to the Fund, subject to the authority of the Board of Trustees and oversight by the Adviser.

The Sub-Adviser is responsible for management of the Fund's investment portfolio. The Sub-Adviser is responsible for selecting investments and assuring that investments are made according to the Fund's investment objective, policies and restrictions. The Sub-Adviser was established for the purpose of advising individuals and institutions. As of September 30, 2018, the Sub-Adviser had approximately $109 million in assets under management and $220 million of assets under advisement for a combined $329 million. Pursuant to a sub-advisory agreement between the Adviser and the Sub-Adviser, the Sub-Adviser is entitled to receive, on a monthly basis, an advisory fee equal to 50% of the advisory fee received by the Adviser less certain expenses. The Sub-Adviser is paid by the Adviser, not the Fund. A discussion regarding the basis for the Board of Trustees' approval of the sub-advisory agreement is available in the Fund's annual report to shareholders dated April 30, 2018.

Portfolio Managers

C. Thomas Howard, PhD
CEO and Chief Investment Officer

Dr. Howard founded AthenaInvest Inc. in 2005 and its wholly owned subsidiary AthenaInvest Advisors LLC in 2008 and currently serves as Chief Executive Officer, and Chief Investment Officer. Dr. Howard's responsibilities include conducting the basic research underlying the Sub-Advisor's investment processes; structuring and monitoring investment portfolios; and making all buy and sell decisions. Dr. Howard is a Professor Emeritus at the Reiman School of Finance, Daniels College of Business, University of Denver, where for over 30 years he taught courses and published articles in the areas of investment management and international finance. Dr. Howard received a BS in Mechanical Engineering at the University of Idaho. Dr. Howard then entered Oregon State University, where he received an MS in Management Science after which he received a Ph.D. in Finance from the University of Washington.

Andrew C. Howard
Vice President: Portfolio Manager

Mr. Howard joined AthenaInvest LLC in October 2006. Mr. Howard designed, developed and implemented the company's patented stock and mutual fund research database. Mr. Howard is co-portfolio manager and research analyst on all AthenaInvest LLC portfolios with his father professor C. Thomas Howard, PhD. Mr. Howard also trades all Athena portfolios across multiple models and platforms. Prior to joining AthenaInvest LLC, Mr. Howard was a software development consultant to Fortune 500 firms. Mr. Howard spent the first years of his career as a corporate financial analyst with Sony Online Entertainment, Leica Geosystems, and StorageTek. Mr. Howard earned his BS in Finance in 1999 from the Daniels College of Business at the University of Denver, where he was a Chancellor's Scholar.

Dr. Howard and Mr. Howard are jointly and primarily responsible for the day-to-day management of the Fund.

Prior Performance of AthenaInvest Advisors LLC

AthenaInvest Advisors LLC (the "Sub-Adviser") manages separately managed accounts with substantially similar objectives and strategies as it will use to manage the Fund.

The following tables set forth performance data relating to the historical performance of the Sub-Adviser's behavioral tactical strategy, which represents all of the accounts and funds managed by the Sub-Adviser for the periods indicated that have investment objectives, policies, strategies and risks substantially similar to those employed by the Sub-Adviser in the management of the Fund (the "Composite"). The data, which has been provided by the Sub-Adviser, is provided to illustrate the past performance of the Sub-Adviser in managing accounts with substantially similar investment strategies, as measured against the MSCI ACWI Index, and does not represent the performance of the Fund.

The accounts in the Composite are not subject to the diversification requirements, specific tax restrictions and investment limitations imposed on the Fund by the 1940 Act, or Subchapter M of the Internal Revenue Code. Consequently, the performance results for the Composite could have been adversely affected if the strategy had been operated as a registered investment company. The Composite was valued on a monthly basis, which differs from the Securities and Exchange Commission's standardized method of calculating performance that employs daily valuation and may produce different results. Composite returns are shown net of the expenses of the Fund's Class I shares (currently 1.25%). Returns for the Fund's Class A and Class C shares would be lower because those share classes have higher expense ratios than Class I shares. **You should not consider the past performance of the Sub-Adviser's behavioral tactical strategy as indicative of the future performance of the Fund.**

Name	2010(1)	2011	2012	2013(1)	2014	2015	2016	2017	2018
Composite	25.29%	5.19%	15.44%	54.24%	19.85%	0.34%	6.39%	25.77%	-3.22%
MSCI ACWI Index(2)	19.13%	-7.35%	16.13%	22.80%	4.16%	-2.36%	7.86%	23.97%	-9.42%

(1) The inception date for the Composite was August 26, 2010. Returns for 2010 are September 1 through December 31 and are not annualized.

(2) The MSCI ACWI Index represents performance of the full opportunity set of large and mid-cap stocks across 23 developed and 24 emerging markets. As of September 2018, it covers more than 2,700 constituents across 11 sectors and approximately 85% of the free float-adjusted market capitalization in each market.

The chart below shows the average annual historical performance of the Composite.

For the Periods Ended 12/31/18	Composite	MSCI ACWI Index
1 Year	-3.22%	-9.42%
5 Years	9.27%	4.26%
Since Inception*	16.83%	8.27%

* The inception date for the Composite was August 26, 2010.

HOW SHARES ARE PRICED

The net asset value ("NAV") and offering price (NAV plus any applicable sales charges) of each class of shares is determined at 4:00 p.m. (Eastern Time) on each day the New York Stock Exchange ("NYSE") is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and applicable distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in Underlying Funds which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the Underlying Funds do not price their shares, the value of some of the Fund's portfolio securities may change on days when you may not be able to buy or sell Fund shares. In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund's assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund's net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

Share Classes

This Prospectus describes three classes of shares offered by the Fund. The main differences between the share classes are ongoing fees, minimum investments and sales charges. Class A shares pay an annual fee of up to 0.25% for distribution expenses pursuant to a plan under Rule 12b-1, Class C shares pay an annual fee up to 1.00% for distribution expenses pursuant to a plan under Rule 12b-1, and Class I shares do not pay such fees. Class A shares have a maximum sales charge of 5.75% and Class C and Class I shares have none; and minimum investment amounts also vary. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase. All classes of shares in the Fund represent interest in the same portfolio of investments in the Fund. Not all shares classes may be available for purchase in all states.

Class A Shares

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge and is subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. Over time, fees paid under this distribution and service plan will increase the cost of a Class A shareholder's investment and may cost more than other types of sales charges. The minimum initial investment in Class A shares of the Fund is $2,500 for retirement plan accounts and $2,500 for all other accounts. The minimum subsequent investment in Class A shares of the Fund is $100. These investment minimums may be waived by the Adviser. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The sales charges described below, which may be waived in the Adviser's discretion, apply to your purchases of Class A shares of the Fund:

Amount Invested	**Sales Charge as a % of Offering Price**(1)	**Sales Charge as a % of Amount Invested**	**Dealer Reallowance**(2)
Under $25,000	5.75%	6.10%	5.00%
$25,000 to $49,999	5.00%	5.26%	4.25%
$50,000 to $99,999	4.75%	4.99%	4.00%
$100,000 to $249,999	3.75%	3.83%	3.25%
$250,000 to $499,999	2.50%	2.56%	2.00%
$500,000 to $999,999	2.00%	2.04%	1.75%
$1,000,000 and above	1.00%	1.01%	1.00%

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.

(2) Represents the amount of the sales charge paid by the Fund's distributor to broker-dealers selling Fund shares.

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Northern Lights Distributors, LLC (the "Distributor"), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your "immediate family" (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment adviser);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs;
- Shares held directly in the Fund account on which the broker-dealer (financial adviser) of record is different than your current purchase broker-dealer.

Letters of Intent: Under a Letter of Intent ("LOI"), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of $25,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13 month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Class A Shares: If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of the Fund sponsored by the Adviser or any of its subsidiaries, their families (*e.g.*, spouse, children, mother or father) and any purchases referred through the Adviser.
- Employees of the Adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the fund's shares and their immediate families.
- Participants in certain "wrap-fee" or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the distributor.
- Clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisers may charge a separate fee (there are no such arrangements in place as of the date of this prospectus).
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the distributor.
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of $5 million where the plan's investments in the Fund are part of an omnibus account. A minimum initial investment of $1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an "NAV transfer"). Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

Class C Shares: Class C shares of the Fund are offered at their NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of a Class C shareholder's investment and may cost more than other types of sales charges. The minimum initial investment in Class C shares of the Fund is $2,500 for retirement plan accounts and $2,500 for all other accounts. The minimum subsequent investment in Class C shares of the Fund is $100 for retirement plan accounts and $100 for all other accounts. These investment minimums may be waived by the Adviser.

Class I Shares: Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees, but have a higher minimum initial investment than Class A and Class C shares. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares require a minimum initial investment of $100,000 and minimum subsequent investment of $100. These investment minimums may be waived by the Adviser.

HOW TO PURCHASE SHARES

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail:	***or Overnight Mail:***
ATHENA BEHAVIORAL TACTICAL FUND	**ATHENA BEHAVIORAL TACTICAL FUND**
c/o Gemini Fund Services, LLC	c/o Gemini Fund Services, LLC
P.O. Box 541150	17645 Wright Street, Suite 200
Omaha, Nebraska 68154	Omaha, Nebraska 68130

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct. Shares of the Fund, or certain classes, may not be available for purchase in every state.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-888-868-9501 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of $100 on specified days of each month into your established Fund account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Investment Plan.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to "Athena Behavioral Tactical Fund." The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a $25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund and share class,
- the dollar amount of shares to be purchased,
- a completed purchase application or investment stub, and
- check payable to the "Athena Behavioral Tactical Fund."

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-888-868-9501 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail:	*or Overnight Mail:*
Athena Behavioral Tactical Fund	**Athena Behavioral Tactical Fund**
c/o Gemini Fund Services, LLC	c/o Gemini Fund Services, LLC
P.O. Box 541150	17645 Wright Street, Suite 200
Omaha, Nebraska 68154	Omaha, Nebraska 68130

The Fund typically expects that it will take up to three business days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-888-868-9501. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a $15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual accounts, IRA or other qualified plan account have a current account value of at least $10,000, you may participate in the Fund's Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of $100 on specified days of each month into your established bank account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than the lesser of $250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued under the Fund's net asset value procedures. To the extent feasible and if in the best interests of the Fund and its shareholders, redemptions in kind will be paid with a pro rata allocation of the Fund's portfolio. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue redemption proceeds based on the next determined NAV following your redemption request. The Fund typically expects that it will take up to three business days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, any lines of credit and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in "good order." To be in good order, the following conditions must be satisfied:

- the request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- the request must identify your account number;
- the request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- if you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed $50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed $50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance in the Fund falls below $2,500, the Fund may notify you that, unless the account is brought up to at least $2,500 within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below $2,500 due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing or other disruptive trading activities. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund uses various methods to reduce the risk of market timing.

These methods include committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy." Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. However, the Fund will ensure that financial intermediaries maintaining omnibus accounts on behalf of the Fund enter into an agreement with the Fund to provide shareholder transaction information, to the extent known to the financial intermediary, to the Fund upon request.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to make at least annual distributions, which would include substantially all of its net investment income and may also include a portion which may be a return of capital. The Fund intends to make net capital gains distributions annually in December. Distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January.

However, pursuant to its distribution policy, the Fund may make distributions that are treated as a return of capital, in part, because a portion of an MLPs distributions to the Fund may represent a return of capital and are therefore not included in the distributions of net investment income and net capital gains described above. Return of capital is the portion of a distribution that is the return of your original investment dollars in the Fund. A return of capital is not taxable to a shareholder unless it exceeds a shareholder's tax basis in the shares. Returns of capital reduce a shareholder's tax cost (or "tax basis"). Once a shareholder's tax basis is reduced to zero, any further return of capital would be taxable. The Fund will provide disclosures, with each distribution, that estimate the percentages of the current and year-to-date distributions that represent (1) net investment income, (2) capital gains and (3) return of capital. At the end of the year, the Fund may be required under applicable law to re-characterize distributions made previously during that year among (1) ordinary income, (2) qualifying dividends, (3) capital gains and (4) return of capital for tax purposes. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, 17645 Wright Street, Omaha, Nebraska 68130, is the distributor for the shares of the Fund. Northern Lights Distributors, LLC is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees: The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plans for Class A and Class C shares (the "Plans"), pursuant to Rule 12b-1 Plan of the 1940 Act, which allow the Fund to pay the Fund's distributor an annual fee for distribution and shareholder servicing expenses of up to 0.25% and 1.00% of the Fund's average daily net assets attributable to Class A shares and Class C shares, respectively. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Fund's distributor and other entities are paid pursuant to the Plans for distribution and shareholder servicing provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

Additional Compensation to Financial Intermediaries: The Distributor, the Fund's affiliates, and the Adviser and their affiliates may each, at their own expense and out of their own assets, including their legitimate profits from Fund-related activities, provide additional cash payments or reimbursement for travel or other expenses, to financial intermediaries who sell shares of the Fund or assist in the marketing of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, due diligence conferences (including the costs of attending adviser-sponsored due diligence conferences), conference sponsorships, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

Householding: To reduce expenses, the Fund mails only one copy of a Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-888-868-9501 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights tables are intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the tables represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information for the Fund has been derived from the Fund's financial statements. The information for the fiscal year ended April 30, 2018 has been audited by RSM US LLP, whose report, along with the Fund's financial statements, are included in the Fund's April 30, 2018 annual report. The information for the period ended October 31, 2018 is unaudited. The annual report for April 30, 2018 and the semi-annual report for October 31, 2018 are available upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Period

Class A	Six Months Ended October 31, 2018 (Unaudited)	Year Ended April 30, 2018	Year Ended April 30, 2017	Period Ended April 30, 2016[1]
Net asset value, beginning of period	$ 10.23	$ 9.91	$ 9.38	$ 10.00
Activity from investment operations:

PRIVACY NOTICE

Rev. February 2014

FACTS	WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	The types of personal information we collect and share depends on the product or service that you have with us. This information can include: • Social Security number and wire transfer instructions • account transactions and transaction history • investment experience and purchase history When you are *no longer* our customer, we continue to share your information as described in this notice.
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Northern Lights Fund Trust share information?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus.	**YES**	**NO**
For our marketing purposes - to offer our products and services to you.	**NO**	**We don't share**
For joint marketing with other financial companies.	**NO**	**We don't share**
For our affiliates' everyday business purposes - information about your transactions and records.	**NO**	**We don't share**
For our affiliates' everyday business purposes - information about your credit worthiness.	**NO**	**We don't share**
For nonaffiliates to market to you	**NO**	**We don't share**

QUESTIONS? **Call 1-402-493-4603**

What we do:	
How does Northern Lights Fund Trust protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings. Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.
How does Northern Lights Fund Trust collect my personal information?	We collect your personal information, for example, when you • open an account or deposit money • direct us to buy securities or direct us to sell your securities • seek advice about your investments We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only: • sharing for affiliates' everyday business purposes – information about your creditworthiness. • affiliates from using your information to market to you. • sharing for nonaffiliates to market to you. State laws and individual companies may give you additional rights to limit sharing.

Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. • *Northern Lights Fund Trust does not share with our affiliates.*
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. • *Northern Lights Fund Trust does not share with nonaffiliates so they can market to you.*
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. • *Northern Lights Fund Trust doesn't jointly market.*
